TATA KELOLA LOGISTIK PERUNGGAN

Industri perunggan
Indonesia terus mengalami
transformasi bisnis baik
dalam hal peningkatan
skala bisnis, keuangan, dan
manajemen.

Diselenggarakan Oleh:

Ditukung Oleh:

Pasar produk hasil unggas juga mulai bergeser dari daging segar atau hangat ke produk dingin atau beku, terlebih pada saat masa pandemi seperti saat ini. Produk hasil unggas juga diolah dalam berbagai ragam penanganan dan penyajian produk, sehingga hal ini memerlukan sistem logistik perunggasan yang efisien

Diselenggarakan Oleh:

Ditukung Oleh:

Tantangan Perunggasan

Indonesia sebagai negara kepulauan yang jika sistem logistiknya tidak ditangani dengan baik, maka produk perunggasan tidak bisa terdistribusi dengan baik, terjadi perbedaan harga yang terlalu besar, kesenjangan kesejahteraan, dan bahkan bisa terjadi kesenjangan sosial yang cukup nyata.

Diselenggarakan Oleh:

ILA
INDONESIA LIVESTOCK ALLIANCE

BPPI
Badan Pengembangan
Pemerikan Indonesia

POULTRY
INDONESIA

Ditukung Oleh:

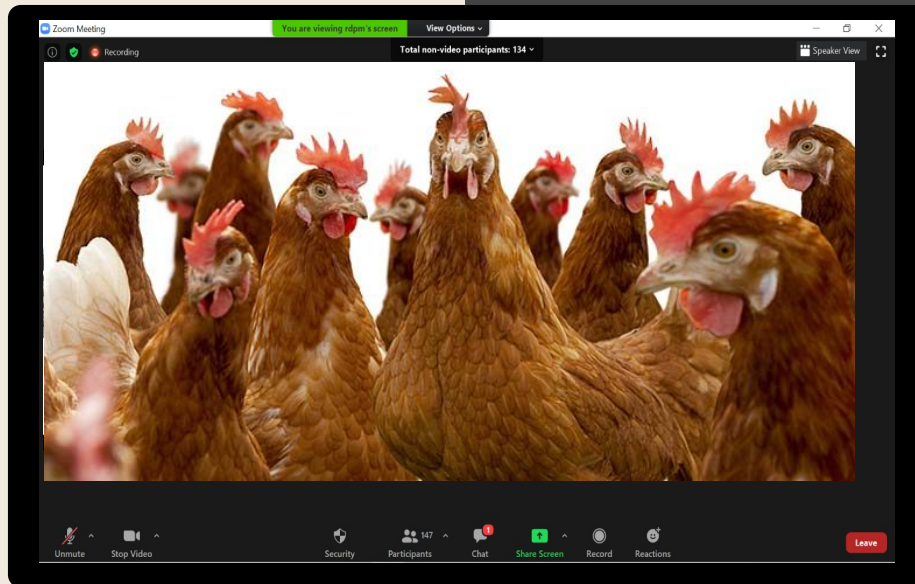

Tantangan Perunggasan

Sistem logistik yang tidak baik juga menyebabkan produk unggas menjadi mudah terserang penyakit, sulit menerapkan prinsip kesejahteraan hewan, dan untuk produk hasil unggas yang telah diproses lebih lanjut, menjadi mudah rusak

ILC #Edisi09

Untuk membahas hal itu, Badan Pengembangan Pternakan Indonesia (BPPI), Indonesia Livestock Alliance (ILA), Forum Logistik Pternakan Indonesia (FLPI) Fapet IPB, dan Majalah Poultry Indonesia menggelar Indonesia Livestock Club (ILC) #Edisi09: Tata Kelola Logistik Perunggsan

Diselenggarakan Oleh:

Dibukung Oleh:
